If you are using this service to check or change the contact details of your domain name you must contact your Registrar in order to do so. This can be done by simply clicking on the Registrar's link located next to 'Registrar Name'.

To address user concerns about privacy and spam, and in line with international best practice, .au Domain Administration (auDA) has implemented Image Verification Check (IVC) for all email addresses on the web-based WHOIS service. The purpose of IVC is to prevent or hinder unauthorised access by automated data mining programs or scripts. For consistency, auDA has removed all email addresses from Port 43 WHOIS responses; users of Port 43 WHOIS will be referred to the web-based WHOIS service to access email addresses via IVC.
